Product	 COLLABORATIVE FOR HIGH PERFORMANCE CHPS SCHOOLS CHPS High Performance Database	 UL Sustainable Product Guide: GREENGUARD and GREENGUARD Gold Certified as Low Emitting	UL Sustainable Product Guide: Mold Resistance-Claim Validation	4-week mold test – ASTM D3273
DensArmor Plus® Interior Panel	Low Emissions	Yes	Yes	Yes
DensArmor Plus® Abuse-Resistant Interior Panel	Low Emissions	Yes	Yes	Yes
DensArmor Plus® Impact-Resistant Interior Panel	Low Emissions	Yes	Yes	Yes
DensShield® Tile Backer			Yes	Yes
DensGlass® Shaftliner			Yes	Yes
DensGlass® Sheathing				Yes
DensDeck® Roof Boards				Yes
ToughRock® Gypsum Boards	Low Emissions	Yes		
ToughRock® Mold-Guard™ Gypsum Boards	Low Emissions	Yes	Yes	Yes

About UL Environment's GREENGUARD Certification Program

UL Environment aims to protect human health and improve quality of life by enhancing indoor air quality and reducing people's exposure to chemicals and other pollutants. As an ISO 17065 accredited, third-party organization, UL Environment certifies products and material for low chemical emissions and serves as a resource for choosing healthier products and materials for indoor environments. Products that have achieved GREENGUARD Certification are scientifically proven to meet some of the world's most rigorous, third-party chemical emissions standards—helping reduce indoor air pollution and the risk of chemical exposure while aiding in the creation of healthier indoor environments. GREENGUARD Certification is broadly recognized and accepted by sustainable building programs and building codes worldwide.

Collaborative for High Performance Schools® (CHPS®)

Founded in 2000, the Collaborative for High Performance Schools (CHPS) is a non-profit organization that strives to facilitate the design of high performance schools: environments that are healthy, comfortable, energy, resource and water efficient, safe, secure, adaptable, and easy to operate and maintain.

High performance schools help school districts achieve higher student performance, retain quality teachers and staff, reduce operating cost, increase average daily attendance (ADA), and reduce liability, while at the same time reducing environmental impact and resource use. CHPS credits are offered for GREENGUARD Gold Certified products that meet the testing method requirements and emission limits defined in the Agreement between CHPS and UL Environment. UL Environment testing methods and criteria outside of the scope of this Agreement, including testing for total VOCs, phthalates, total particles, and criteria for iVOCs with no CRELs, have not been evaluated and are not endorsed by CHPS or CDHS.

For more information about CHPS, visit www.chps.net.

ASTM D3273 (4-week mold test)¹

Based on testing, when manufactured in accordance with ASTM D3273, all Dens® Brand panels and ToughRock® Mold-Guard™ gypsum boards have scored a 10, the highest level of performance for mold resistance under the ASTM D3273 test method. The score of 10, in the ASTM D3273 test, indicates no mold growth in a 4-week controlled laboratory test. The mold resistance of many building products when used in actual job site conditions may not produce the same results as were achieved in the controlled, laboratory setting. No material can be considered mold proof. When properly used with good design, handling and construction practices, Dens Brand and ToughRock Mold-Guard Brand gypsum products provide increased mold resistance compared to standard paper-faced gypsum boards.

1. For more information concerning mold-resistant test methods and their limitations, go to www.buildgp.com/safetyinfo and select "Mold Resistance."

TRADEMARKS – Unless otherwise noted, all trademarks are owned by or licensed to Georgia-Pacific Gypsum LLC. The GREENGUARD Gold Mark is a registered mark used under license through the UL Environment. USGBC logo is a trademark owned by the U.S. Green Building Council and is used by permission. WARRANTIES, REMEDIES AND TERMS OF SALE – For current warranty information for each product, please go to www.gpgypsum.com and select the product for warranty information. All sales of these products by Georgia-Pacific are subject to our Terms of Sale available at www.gpgypsum.com.

UPDATES AND CURRENT INFORMATION – The information in this document may change without notice. Visit our website at www.gpgypsum.com for updates and current information.

CAUTION – For product fire, safety and use information, go to buildgp.com/safetyinfo or call 1-800-225-6119.

HANDLING AND USE—CAUTION – These products contain fiberglass or fiberglass facings which may cause skin irritation. Dust and fibers produced during the handling and installation of the product may cause skin, eye and respiratory tract irritation. Avoid breathing dust and minimize contact with skin and eyes. Wear long sleeve shirts, long pants and eye protection. Always maintain adequate ventilation. Use a dust mask or NIOSH/MSHA approved respirator as appropriate in dusty or poorly ventilated areas.
