SUPPLY

For years, Georgia-Pacific Gypsum has been a leading manufacturer of premium gypsum products. Now, with the addition of several new plants, we've gained 40 percent more capacity, which means peace of mind when you place an order. We've got the supply to meet your demand on time, every time.

CUSTOMER SERVICE

By joining forces with Temple-Inland Building Products, we're adding 350 additional trusted employees in the Georgia-Pacific Gypsum family. But it's not about becoming a bigger company. It's about improving the ways we serve you. Over the following months, we'll implement new systems designed to help make doing business with us easier than ever.

PRODUCTS

We've always focused on meeting your needs. And, by optimizing product recipes, we can now offer an enhanced portfolio to serve those needs better than ever. Georgia-Pacific Gypsum has more UL approved fire-rated assemblies, a growing family of lightweight products, and we've even added paper-faced sheathing, shaftliner and soffit boards to our ToughRock® family, while retaining our trusted Dens® line of fiberglass mat gypsum panels.
